

## Daria Nahorna

### Software Engineer

Software engineer with 3 years of experience in building and maintaining web applications using front-end and back-end technologies. Proficient in working with client-side and server-side frameworks, databases, and modern web development tools. Collaborate with cross-functional teams, integrating third-party services and APIs, and optimizing web applications for performance.

I am self-driven developer who is able to work independently but prefer to work as part of a team. I am dedicated to continuously improving my skills and staying up-to-date with the latest trends and technologies in web development. I am excited about the opportunity to work with team of professionals and to further develop my skills in a challenging and innovative work environment.

### Front-end Skills

- Javascript/Typescript
- Responsive Web Design
- React JS
- Angular
- VueJS with Typescript
- HTML
- CSS / SCSS
- Tailwind CSS

### Back-end Skills

- Javascript/Typescript
- C#
- MySQL
- Node.js Express

### Other skills

- Agile Methology
- Figma/Adobe XD
- Git

## Projects and assignments

---

Jan 2024 - Ongoing

### Fullstack Developer

Uddeholm

As a part of a collaborative team, contributed to the implementation of a system for a steel manufacturing company. Worked closely with backend developers to ensure seamless integration between the frontend and backend components, while also optimizing system performance and functionality. Additionally, contributed to implementing business logic, ensuring the system met both technical and client requirements.

C#

SignalR

Sept 2023 - Ongoing  
Malmö

### Fullstack Developer Intern

Prevas

Thoroughly researched AI software and new AI technologies. Built an interactive web application using Vue.js, demonstrating my strong skills in frontend development. Learned the Angular framework, adding to my range of frontend technology skills.

C#

TypeScript

Vue.js

Tailwind

Dec 2022 - Jul 2023  
Malmö

### Project Administrator

Scouterna

Coordinated communication, planning, and hosting of leadership development events and outdoor activities, providing over 100 Ukrainian children and young people with the chance to enjoy meaningful leisure time. Managed and led 20 outdoor meetings for both adults and children, offering them the opportunity to experience Scouting in their lives.

Communicator

Event management

Feb 2022 - Dec 2022

### Looking for another job

Fleeing to Sweden with the beginning of the war in Ukraine. During this time, I am working on hobby projects and technical tasks.

Aug 2019 - Feb 2022  
Chernihiv

## Marketing & Product Manager

UberStep

Worked as a part-time student. Built the basic structure of the websites from the ground up, focusing on the meaning and context of the content that attracted over 200 new visitors daily.

Supervised a team consisting of eight developers and designers to launch more than ten applications on the Google Play Store using ASO technics.

SEO

Applikationsdesign

ASO

Google Analytics Individual

## Education

Software Engineering (Masters)

2020 - 2021

Chernihiv Technological State University (Chernihiv)

Thesis topic is Decision support system for the diagnosis of heart diseases. The subject of the study is the use of machine learning algorithms for the detection and diagnosis of heart disease.

The aim of the work is to study the relationship between blood test results and outpatient information from the patient with the occurrence of heart disease using data mining methods, to include them in the model of heart disease prediction and compare the properties of this approach with other prediction functions.

Software Engineering (Bachelor)

2016 - 2020

Chernihiv Technological State University (Chernihiv)

## Commitments and publications

---

AI as your new Virtual Colleague 2023

Artificial intelligence is not our enemy. It is our colleague. It can relentlessly help us solve everyday tasks. Even more, it processes a lot of data and uncovers insights that can shape the future of our work and industries. I researched some AI tools and the benefits they can offer to colleagues in Prevas.
